

Northwestern Connector Project Partners:

MAPLE/DRAKE & MAPLE/FARMINGTON ROUNABOUT CONSTRUCTION PROJECTS

- ▶ Work will begin in late April or early May on the reconstruction of the **Maple/Drake intersection** as a roundabout.
- ▶ Work will begin in late summer on the reconstruction of the **Maple/Farmington intersection** as a roundabout.
- ▶ Both are part of the Road Commission for Oakland County's **Northwestern Connector Project**. Both will be three-lane roundabouts that will increase the **capacity** and **safety** of the intersections.

MAPLE/DRAKE ROUNABOUT

Schedule

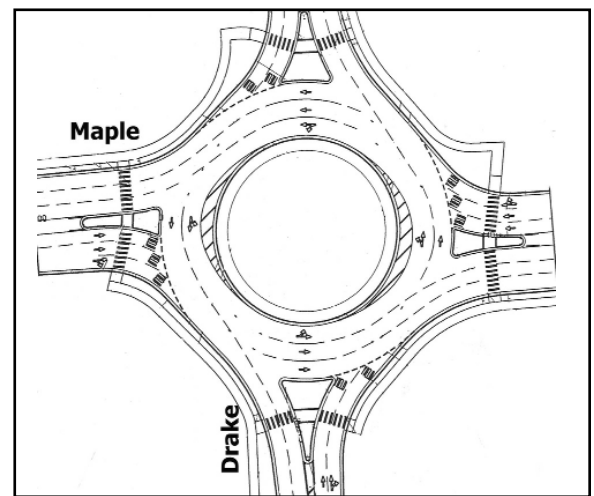

Start: Late April/early May
Finish: End of June/early July

Road Closure/Detour (See detour map on back)

Once this project starts, Drake Road will be closed at Maple. The detour route for Drake traffic will be 14 Mile to Farmington Road to Walnut Lake Road and back to Drake and vice versa.

Local traffic needing to access homes or businesses along Drake south of Maple, or the Drake Township Park, should access Drake from 14 Mile. Local traffic needing to access Drake north of Maple should do so via Walnut Lake Road.

While Maple will remain open through the intersection during the project, motorists may encounter delays.

MAPLE/FARMINGTON ROUNABOUT

Schedule

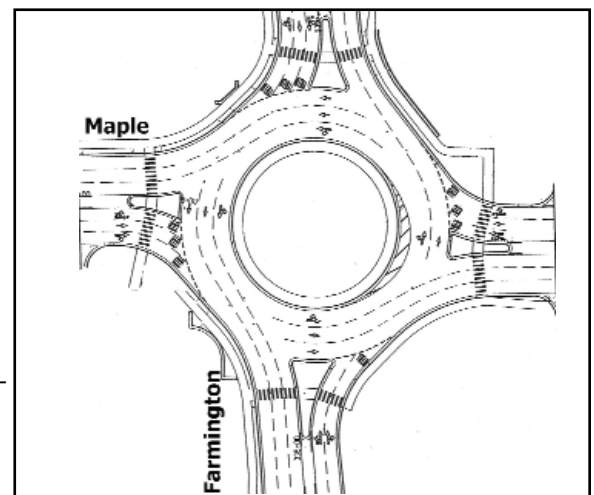

Start: July or August
Finish: Late September/early October

Closure/Detour (See detour map on back)

Once this project starts, Farmington Road will be closed at Maple. The detour route for Farmington Road traffic will be 14 Mile to Drake Road to Walnut Lake and back to Farmington and vice versa.

Local traffic needing to access homes or businesses along Farmington south of Maple, should access Farmington from 14 Mile. Local traffic needing to access Farmington north of Maple should do so via Walnut Lake.

While Maple will remain open through the intersection during the project, motorists may encounter delays.

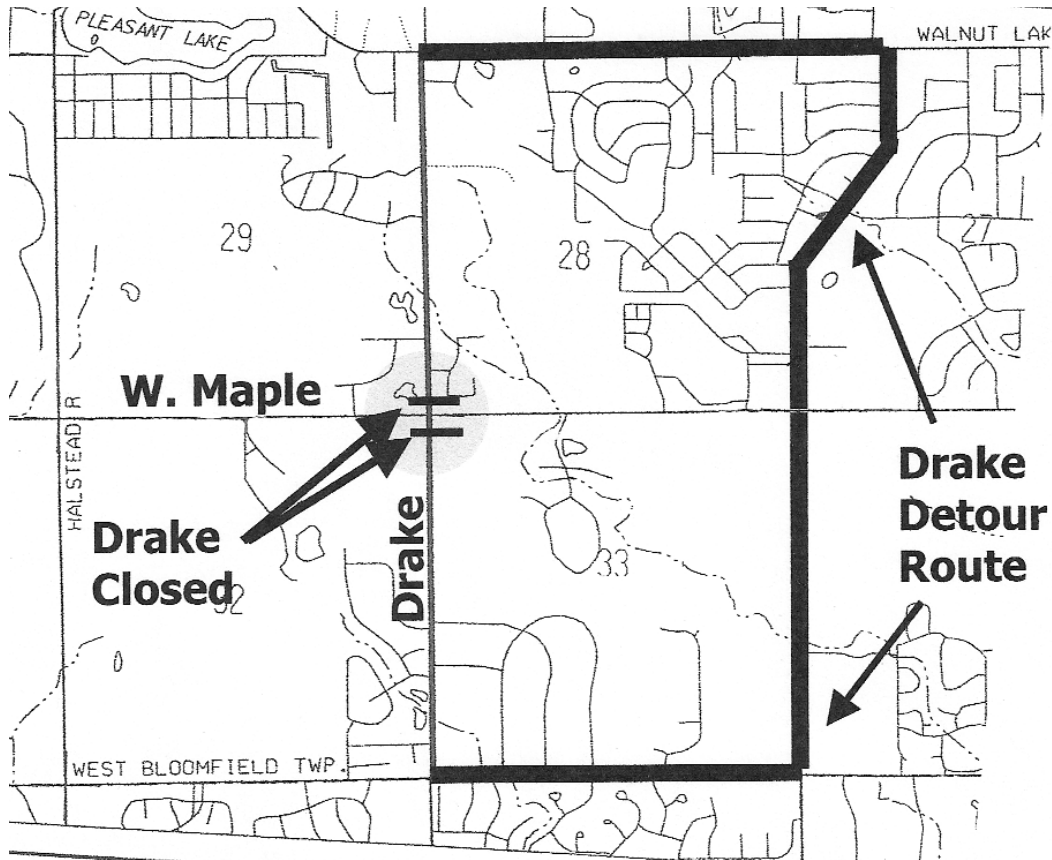

For more information about the project, visit the Northwestern Connector Web site, www.nwconnector.com or call the RCOC Department of Citizen Services (toll-free) at [877-858-4804](tel:877-858-4804).

The project Web site includes info about:

- The benefits of roundabouts
- How to drive roundabouts
- Roundabout safety statistics and much more
